

UI TESTING (manual)

We conduct UI testing of the main webpage of the website (<https://qasvus.wixsite.com/ca-marketing>).

We are on the main page of the website, checking the presence, placement, correctness of all elements of the main page, and the functionality of clickable elements.

Expected result:

All elements of the main page are in accordance with the documentation, correct, and there are no spelling errors. Clickable elements are functional.

Actual result:

Elements of the main page are in accordance with the documentation, clickable elements are functional.

There is a spelling error in the website name:

CALIFORNIA **MARCKETING**

Logical inconsistency between the website name and description:

A Full-Stack Creative Agency in **NY**

Incorrect country code format for the feedback phone number and an extra digit in the phone number format:

+7 495-224-23341

Incorrect email address format:

mail@**gmail**.

Two identical "unknown" elements are located in the social media icons field, which open different pages:

(TEST FAIL)

Tools:

Chrome Version: 111.0.5563.146 (Official Build) (x86_64)

MacOS Ventura 13.1
