

Monitoring API testing website:
"CALIFORNIA MARKETING"
(<https://qasvus.wixsite.com/ca-marketing>)

In Postman, we create a Monitor, configure the day and time of the check, and specify the collection to be checked at the specified time. We buy tickets to Hawaii, fly to Hawaii, and Postman is still working...

Tools:

Chrome Version: 111.0.5563.146 (Official Build) (x86_64)

MacOS Ventura 13.1

Postman
