

Automation testing websites:

“CALIFORNIA MARKETING”

(<https://qasvus.wixsite.com/ca-marketing>)

“WIKIPEDIA”

(<https://www.wikipedia.org/>)

“IDEYKA”

(<https://ideyka.com.ua/en/>)

1. UI test (<https://www.wikipedia.org>)

Expected result:

All elements of the site are located in accordance with the documentation, correct, and there are no spelling errors. Clickable elements are functional.

Actual result:

Elements of the main page are located in accordance with the documentation, clickable elements are functional.

(TEST PASS)

Tools:

Chrome Version: 111.0.5563.146 (Official Build)(x86_64)

MacOS Ventura 13.1

Selenium IDE

Verification file is in the folder

2. Positive test (<https://qasvus.wixsite.com/ca-marketing>)

Expected result:

All website elements work, there are no server errors.
The entire functionality from registration on the site to making a purchase works correctly (when using valid elements).

Actual result:

The registration on the website in automatic mode went well, but filling in the "My addresses" field automatically is not possible. The test was interrupted.

(TEST FAIL)

Tools:

Chrome Version: 111.0.5563.146 (Official Build) (x86_64)

MacOS Ventura 13.1

Selenium WebDriver

PyCharm

Verification file is in the folder

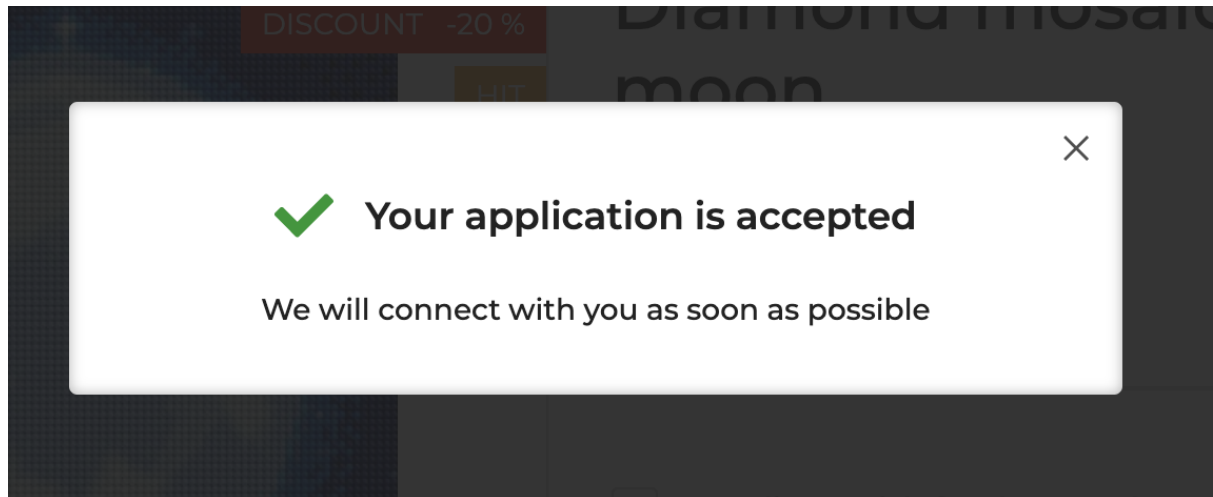

3. Positive test (<https://ideyka.com.ua/en/>)

Expected result:

All website elements work, there are no server errors.
The entire functionality from registration on the site to making a purchase works correctly (when using valid elements).

Actual result:

All website elements work, there are no server errors.
The entire functionality from registration on the site to making a purchase works correctly (when using valid elements).

(TEST PASS)

Tools:

Chrome Version: 111.0.5563.146 (Official Build) (x86_64)

MacOS Ventura 13.1

Selenium WebDriver

PyCharm

Verification file is in the folder

4. Negative test (<https://ideyka.com.ua/en/>)

Expected result:

The website "protects" itself by giving errors when entering invalid and incorrect information.

Actual result:

The website does not "protect" itself by giving errors when entering invalid and incorrect information.

(TEST FAIL)

Tools:

Chrome Version: 111.0.5563.146 (Official Build) (x86_64)

MacOS Ventura 13.1

Selenium WebDriver

PyCharm

Verification file is in the folder

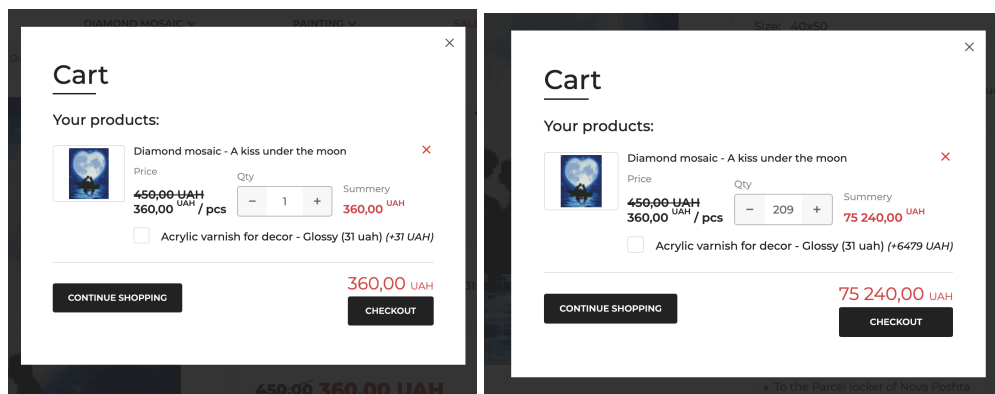

5. Boundary test (<https://ideyka.com.ua/en/>)

Expected result:

Correct operation of the product input fields within the maximum and minimum allowable quantities.

Actual result:

The product input fields work correctly within the maximum and minimum allowable quantities.

(TEST PASS)

Tools:

Chrome Version: 111.0.5563.146 (Official Build) (x86_64)

MacOS Ventura 13.1

Selenium WebDriver

PyCharm
